DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Angus Gill June 20, 07.

Cancel claims 2-31, 33, 35 and 37.

Amend abstract and claims 1, 32, 34 and 36, as follows:

In the abstract delete starting with the word "Further" in line 12 through line 14. In the abstract replace the word "disclose" in line 7 with "disclosure".

In claim 1 replace "on" in line 18 with "one" and replace "a" in lines 34 and 39 with "one". In line 33 delete "}".

In claim 32 replace "on" in line 22 with "one" and replace "a" in lines 38 and 43 with "one". In line 37 delete "}".

In claim 34 replace "on" in line 21 with "one" and replace "a" in lines 37 and 42 with "one". In line 36 delete "}".

In claim 34 line 1 insert "computer" after "A" and replace "by" in line 1 with "having".

In claim 36 replace "on" in line 18 with "one" and replace "a" in lines 34 and 39 with "one". In line 33 delete "}".

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claims 1, 32, 34 and 36 are allowed. The prior art discloses a datacasting communications system with QoS parameters having specific capacity requirements and dynamic link status changes based on user profile changes.

The prior art however fails to disclose or suggest transferring a user receiving a datacast from one type of bearer to another type of bearer to satisfy an objective and restrictions, wherein the restrictions establish capacity limits and further increasing a capacity for a type of bearer in a supported area, if required to satisfy requirements of the objective, wherein more capacity may be added as constrained by the restrictions of the objective, wherein a determined state of the bearers indicates that more capacity is needed and decreasing the capacity for a type of bearer in the supported area, if required to satisfy requirements of the objective, wherein more capacity may be removed as constrained by the restrictions of the objective, wherein the determined state indicates that less capacity is needed.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Raj K. Jain whose telephone number is 571-272-3145. The examiner can normally be reached on M-F.
